

CREATIVE REUSE WORKSHOPS FOR COMMUNITY SUITABLE FOR ALL AGES

WOVEN EYES	RAG RUG COASTERS	PLASTIC PENDANTS
<p>Participants can learn to make a simple yet beautiful woven eye using clean waste materials.</p> <p>Their woven eye can be taken home once complete or stay onsite to form part of a growing installation that hangs on a tree, fence or railing for the duration of your event.</p> <p>Great for outdoors under a shady tree.</p>	<p>People can use a selection of fabric pieces cut from old tshirts to learn the skills to make a set of rag rug coasters.</p> <p>This is a creative yet practical workshop that anyone can do.</p> <p>Best suited to older children and adults.</p>	<p>Using salvaged plastic toys and other odd parts, participants can make their own unique necklace.</p> <p>Plastic pendants are the perfect reuse accessories to glam up any festival or event outfit.</p>
		
LOOSE PARTS PLAY *	STORY & SCULPTURE *	LITTER BUGS *
<p>This space is set up as a tactile playground for younger children. Each workshop will be themed to further enhance the play experience.</p> <p>Theme's currently available include; <i>Crazy Face</i>, <i>Cityscapes</i> and <i>Forest floor</i>.</p> <p>This workshop is great for shopping centres, libraries or events with a quiet children's area.</p>	<p>We will begin by sharing a picture with an environmental theme, children will then be encouraged to design and create a reuse sculpture inspired by a character or image from the story.</p> <p>We have curated a list of books you are welcome to choose from. However, if you have a particular story you wish for us to use, just let us know!</p>	<p>Using real insects as inspiration, children can chat with our resident Taxonomist Shasta about bugs, creepy crawlies, flies and spiders.</p> <p>They will then design their own anatomically correct bug and make a model out clean waste material salvaged from landfill.</p>
		
RAG RUGS #	UP-CYCLED HANGING PLANTER #	FENCE WEAVING
<p>This is a great workshop for people who wish to learn a new skill, create a practical item for the home and reuse all those old tshirts destined for landfill!</p> <p>Each person will complete a rag rug to take home at the end of the workshop.</p>	<p>In this workshop people will learn how to create their own up-cycled hanging planter using materials destined for landfill.</p> <p>This is a great way to reuse household items that have outworn their current purpose.</p>	<p>Using a design that complements the theme of your event we will invite people to join us to weave a large scale art work on a wire fence or barricade using fabrics and fibers destined for landfill.</p> <p>It can be taken down once your event is over or remain for an extended period of time for the public to admire.</p>
		

Set duration only - 15 people maximum
* Designed for children

If you wish to book a workshop but would like to modify it from the offering here please let us know and we can provide you with an updated workshop proposal. Contact Brooke, education@resource.coop or call (03) 6223 3891

THINGS TO KNOW ABOUT OUR REUSE EDUCATION WORKSHOPS...

Our community workshops are suitable for indoor or outdoor events, activity programs, festivals, markets and shopping centres. Resource will be responsible for supplying all materials and equipment. Our arts workers will set up and pack down each workshop and ensure your area is returned to its original condition.

If you wish to have creative outcomes displayed till the end of your festival/event or for an extended time after it's over - we can return, pack it down and dispose of it responsibly for a small additional fee.

Our workshops;

- Are predominantly suitable for children and their families.
- Run for a minimum of 2 hours.
- Use materials salvaged from landfill that are clean and deemed safe for use.
- Are delivered by arts workers who have current Working with Children checks.
- Are covered by our public liability insurance and we can provide risk assessment documentation.

COST: Workshops start at \$340 (exc GST) for 2 hour delivery. This includes materials and travel within 30km of Hobart CBD.

Please contact education@resource.coop or call (03) 6223 3891 for all workshop enquiries and quotes.
